

## Mirror Demister Installation Manual

## Fitting Instructions & Advice

The heating element is double insulated, eliminating the need for an earth connection. The optimum surface temperature is 36°C therefore a transformer on the thermostat is not required. A switch must be incorporated in the fixed wiring to allow disconnection of this appliance from the supply. This must be installed in accordance with the national wiring regulations.

- Take power feed from a light circuit or separate electrical circuit, exiting the wall where the mirror is mounted.
- Mark the intended position of the Demister element on the back of your mirror on the wall.
- Line up the power feed with the element cold tail, ensuring the join does not protrude.
- Remove the self adhesive backing from the element and apply the adhesive side with the corresponding marks.
- Using a clean cloth smooth out the element ensuring that it lies flat.

### Note:

- Do not puncture or screw through anywhere on the element.
- This appliance is not intended for use by young children or infirm persons unless they have been adequately supervised by a responsible person to ensure they can use the appliance safely.
- Children should be supervised to ensure that they do not play with the appliance.

## Warranty

### 2 year warranty

This product is warranted against defects in material and workmanship under normal conditions of use for a period of two years from the date of purchase. During this period, we will repair or replace the product, if it is defective in normal operating conditions in terms of materials or workmanship, with a new product of equivalent quality at our discretion.

The warranty does not cover costs of transportation, removal, installation or damage caused by misuse or accident. In no event will we be liable for consequential loss resulting from the installation of the product. Any defective product should be returned to us with the original invoice.

If you have any questions concerning the installation or programming of this product, please call our technical support team on:
